The FEST HALL.

One of the most pleasing features of the Sengerlest is the mignificent hall in which it is held. It is roomy, well ventiated, very attractive in the arrangement and papearance of both the exterior and interior, but especially within, as arranged for the Fest, and its accountie properties are all that could be desired. The finest shading of the notes—the most delicate pianism op passes—were as perfectly enjoyed last night in one postesion of so large and so fine a place of assemblage. Without it the present Samgerlest would have lost something of its success.

The pleasant air last night within the

gerfest would have lost something of its success.

The pleasant air last night within the hall was also in pleasing contrast to an ordinary hall on so sultry a night. All were entirely comfortable.

The breezes raised by the numerous fans fluttering all ever the house waved the hundreds of flags which waved aboye the heads of the audience, and viewed from the elevated reporters' stand the scene was an animated one, the white costantes of the ladies alternating with the dark ones of the gentlemen, the gay and many-colored plumes and flowers of hats and bonnets, and the vari-colored flans, all in motion, making a kaleidoscopic effect almost bewildering.

The stage was a scene of rare beauty. In the middle, before the Director's box. was a magnificent lyre of natural flowers, live feet high, while all across the front of the stage were growing plants, many in bloom, exhaling their fragrance and permeating the nir for some distance.

THE SINGERS AND THE AUDITORS.

The audience was a flattering one in the character of the ladies and gentlemen who composed it. The most cultivated and refined people of Wheeling predominated, though there were many strangers. Almost every well-known local amateur; musician was present, and professional men with their families were numerous. The German element, of course, was most numerous, but not as much so as might have been expected.

The ladies of the chorus, sixty in number, occupied the half of the amphitheatrical stage to the audience's left. They were all dressed in white with little color-in their adornments. The effect was most pleasing. The male singers, composed of the Mennerchor, Beethoven and Mozart societies, were at the audience's right, while the orchestra occupied the central semi-circle in front.

The Honorary President of the Senger-fest, Hon. Augustus Pollack, Mayor Grubb, Rev. William Ulfert, the Active President, Mr. William Grewe, and a few prominent citizens occupied posts of honor in the open space between the two sections of the mixed chourus.

THE FEST INAUGURATED It was considerably after eight o'clock when Prof. Louis Vaas ascended the di-rector's stand and at the tap of his baton the susic of Von\* Weber's "Prezioza" overture began to palpitate upon the air from the instruments of the orchestra. The performance was smooth and almost faultless -- much negrer so, than could have faultless—much nearer so, than could have been expected of any orchestra which had had so limited a time and opportunity to practice together such music as it was and will be called upon to render. The over-ture evoked hearty applause, which was fairly deserved.

airly deserved. Prof. Vass gave way to Prof. H. J. Ar Prof. Vass gave way to Prof. If. J. Ar-benz, the young Director of the Fest. Prof. Arhenz was greeted with a salvo of applause, the justice of which, the dis-tinguished success of his conduct of the evening's performances fully established. Prof. Arbenz is young to undertate so great a work, being about 25 years of age; but the wisdom of his selection as Con-ductor of the Stengerfest concerts is now apparent to those who may have doubted it before.

PRESIDENT POLLACE'S REMARKS.

LADIES AND GENTLEMEN, SINGERS AND FRIENDS OF MUSIC—The project of the artistic bond entwining the cities of Pittsburgh, Allegheny, Steubenville, Marietta, Parkersburg, Bellaire and Wheeling, which has aroused an unprecedented inspiration of enthusiasm in the musical life of this city, culminates to-night in the inaugural of the first musical festival celebrated in Wheeling since 1889.

Permit me to convey to the promoters and to every member of this artistic union, and to this grand assemblage of citizens my grateful recognition of the honor to preside at this innocaing reception, and to extend to you, with my sincerest congratulations, the ardent wish that the interesting event we celebrate may real ze the highest expectations and accomplish a brilliant and triumphant success for art and pleasure.

May I be permitted to add the assurance, that our citizenz withall their materialistic obligations and busy life, in the midst of the reverberating thunder of clanking machinery and the ror of furnace fires, have never ceased their devotion to the sublime art of music—their love of its language, which, in the lofty expressions of feeling, surpasses the grandent of the case of the reverberating thunder of clanking machinery and the ror of or the art—which exerts the most extraordinary and powerful influence on the formation of human character and human action, which, irrespective of race, religion or politics, clasps the universe in one ideal bond of brotherhood.

Minellows prize in one ideal bond of brotherhood.

WHEELING'S PRIDE IN HER MUSICIANS.

May I be allowed to add, that our city has been honored through her art representatives on both sides of the Atlantic and cherishes in one of her most promin

tion in a spirit of generous encouragement and cordial approval, will assure our visiting friends that their selection of this city for the celebration of the musical festival was not only a happy one, but that its desirability for future demonstrations may be recognized and carried with them as a pleasant recollection.

THE INFLUENCE OF THE 'VEST.

MAYOR GRUBE'S ADDRESS OF WELCOME.

Mr. Pollack's speech was frequently interrupted by hearty applause, and at its conclusion the roof resounded with the acclamations of the audience. He then introduced Mayor Grubb, remarking:

The honor to salute our visitors on behalf of our citiz-ns in the language of the country, devolves, I am happy to announce, on a gentleman who, dignified by this community with its highest honors, has distinguished himself by firm devotion to their obligations and responsibilities, who is the foe of vice and the champion of virtue, the loyal friund of good government, of our people and of our visitors.

tors.
Ladies and geutlemen, permit the honor and the pleasure to introduce Mr. Jacob W. Grubb, Mayor of the city of Wheeling.
The Mayor made a brief but appropriate address of welsome. The applique which greeted his appearance amounted to an ovation, lasting some time, and breaking ont again before he began to speak. He was repeatedly interrupted by renewed outbursts, and when he resumed his seat the enthusiasm was even increased.

THE GENEMA ADDRESS.

the enthusiasin was even increased.

THE GRENAN ADDIESS.

Mr. Pollack then again addressed the audience introducing fiev. Mr. Utlert:

The distinction, ladies and gentlemon, to convey to our visiting singing societies in attendance upon this feetival, the grateful appreciation of the honor and plegaure tendered to our community—to translate to our visitors the expressions of the most cordial welcome, and to present to them car sincerest wishes, that their sejourn among he may prove to them, as it assuredly does to our citizens, a source replete with plessure, and an occasion which in the renewal of old and pleasant associations, may be rendered more auspicious by the bonds of new and endearing friendships, in the language immortalized by Schiller and Gothe—in the language of the people whose love of liberty, unrequited by their Fatherland, still impires irrecdom's sours, and whose musical genines on the loftlest pinnacle of fame, electrifies the universe with musical life—in the language of the country associating such tender recollections with our visitor's archidhood days and dear old homes, this distinction has been conferred on one of our highly exteemed citizens, whose sympathies render the duty as pleasant to himself as its accomplished performance will prove interesting to you.

Ladies and gentle—en, I have the honor to introduce Rev. Wm. Uffert.

Rev. Mr. Uffert was glas greeted with vociferons applause. He delivered an elequent address in German, which was a punctuated with applause as the others in address in German delected.

Then came the gem of the evening—the overture to Roseini's "William Teil." by the Fest orchestra. Many of the auditors were heard to declare that they had never listened to a finer rendition of this immortal composition by any orchestra. Time and time were perfect, and if the orchestra acquitted itself creditably in the opening overture, it would be hard to find words to fitly praise its rendition of this one. The audience rose to a high pitch of enthusiasm, and demanded the repetition of the rendition in so forcible a manner that the encore was given. The applause was as hearty after the second rendition as the first, and both times was richly deserved. served.

MR. KAUSCHE. MR. RAUSCHE.

Mr. Carl Kausche, of Baltimore, the tenor, was heard for the first time in Wheeling in an aria from Mozart's "Don Juan." He has a pleasing voice, which showed to advantage in this selection, and sings with an ease which is delightful. He was greeted with veriferous applause, but merely bowed his thanks, decining to sing again.

The male chorus then sang Worner's "Heather Rose." a composition prographs.

The male cherus then sang Werners a "Heather Rose," a composition somewhat familiar to the public in an English trans-lation. It is a simple, melodious air, well suited to a male chorus, and was a very enjoyable feature of the programme. Following this, Miss Dorn Henninges,

THE MIXED CHORUS.

Hegar's "Hymn to Music," in the German originsl, by the ladies and gentlemen of the mixed chorus, with orchestral accompaniament, concluded the programme. It was delightfully rendered, and there was a general expression of regret that the mixed chorus had not a larger share in the concert. The chorus compared favorably with those by male voices only, and was a brilliant and fitting conclusion to an attractive programme. The success of this concert must be taken as an index of the artistic character of the two to follow. They can scarcely be more successful from an artistic standpoint, even if more imposing in the character of the selections on the programme.

A FATAL ACCIDENT

Yesterday afternoon between two and ing fatally, occurred on the Baltimore & Ohio tracks along Water street, nearly opposite the telegraph ofile in the old Baltimore House, between Twentieth and Twenty-first streets. Francis Gallagher, a nine year old son of John Gallagher, who is employed in the wholesale grocery establishment of Baer's Sons, was playing along Waterstreet withsome boys, when in some manner he fell in front of the wheels of a moving car. His left foot was cut entirely off, his right leg and arm broken and the back of his skull crushed. He was olcked up and carried lifto the Baltimore House, where he lived for about a twenty minutes, being conscious nearly all that time. His remains were removed to his home, No. 2146 Alley A, from where he will be buried this afternoon.

The engine attached to the moving car which was being backed, was in charge of Engineer Clark. As nearly as could be tascertained, the boy had a broom bandle that he was thrusting in front of the cwheels, when he was jerked forward as the wheel struck the handle, and thrown on the track. They were named James and George, and were about sixteen and fourteen years of ago. They were bathing in the river mear the blast furnace and were both drowned about the same time. George noise to the balls of turnace and were both drowned about the same time. George going to the help of James when he saw he was drowning, both got beyond their depth in the cur-rent. An immense crowd gathered on the bank and all the skills here and in Benwood were soon helping in the search for the hodies. It seemed as if everyone who heard of the accident turned in that direc-tion; but Mr. Wallace himself could not be found for a good while. The boys were both bright and intelligent and uni-versally liked.
